

# *The Bavis Transaction Drawer™*

*The Multi-Task Drawer For All Your  
Drive-Thru And Walk-Up Transactions*

▶ *Versatility and reliability*

▶ *Designed for use in both retrofit and new construction*

▶ *Affordably priced, yet provides features not found on other drawers*

\* Transaction Drawer shown includes optional Audio Panel

*Built to handle a wide range of volume and packaging, the Bavis Transaction Drawer offers greater reliability and capacity than other products in its price range.*

### **▶ Your Benefits:**

- Powered operation with electronic brake for precise positioning of drawer
- Flat compression seals eliminate airflow and reduce noise by sealing out the environment
- Elimination of belts, gears, pulleys and switches through use of solid state electronics makes this drawer the most trouble free unit in its class
- Manual operation available in case of power failure
- Scratch resistant powder coat finish provides durability and high visibility
- Optional full duplex audio for clear communication
- Designed for use with retrofit or new construction
- Large capacity eliminates need for package receiver

### **▶ Benefits For Your Customers:**

- 18" of extension for greater accessibility
- Drop front operation for convenience and safety
- Large 16" x 12 1/2" x 5 3/4" interior usable dimensions with 25 lb. capacity - large enough for case of 12 oz. cans
- Paper transactions are secured by full length weighted bar

**▶ The Bavis Transaction Drawer - Larger interior capacity without increasing profile**

**▶ The Bavis Transaction Drawer is both UL Listed and Classified**
