TD

- TD - 305

TRANSACTION DRAWER

- The TD-305 leads the way in speeding transactions by providing a "Customer Send Button" on the face of the drawer and enables self service
- Split door design provides high teller visibility of contents
- Converts easily to manual operation in case of loss of power
- Heavy duty "industrial style" rail system designed for constant heavy use
- Optional built in heater provides comfortable use in colder climates
- Approximately 1000 cubic inches of cargo area provides ample room for commercial deposit bags or full boxes of rolled coin
- Automated teller door
